

BlackMax Pro

OFF-GRID POWER

DESIGNED TO POWER SHEDS OR TINY HOUSES!

BlackMax Pro Solar Power Systems are the ideal solution if you want to power a shed, small weekender or tiny house that is not connected to grid power.

Whether you live in a rural location without grid power access, or simply want a more sustainable lifestyle, the BlackMax Pro Solar Power System provides the perfect solution.

The BlackMax Pro is assembled, tested and shipped as a complete system, including solar panels if required. On arrival, your system is ready to install and can be installed by the homeowner or alternatively our specialist off-grid installation team can install it for you.

Off-Grid Power

ALL-IN-ONE STANDALONE POWER SYSTEM

Our BlackMax Pro Solar Systems are designed for applications with a daily power use from as little as 2kWh/day to more than 10kWh/day.

We've done all the groundwork for you. The solar panels, hardware, cabling, mounting equipment for tin roofs and electronics are expertly matched and assembled saving you precious time.

ADVANTAGES

High Quality

Fully engineered, factory assembled and tested in Brisbane.

Local Factory Support Provided

Visitors welcome! Come see us at our RedEarth Factory!

Qualifies for Government Assistance

The BlackMax Pro is eligible for STC Solar Panel Rebates, if installed using CEC-approved solar panels by a CEC-approved installer.

Easy to Install Battery System (<3 hours)

All-in-one system! Plug and play connection to PV panels and a backup generator. Ensure it is installed on a dry surface in the shade, by your certified installer.

Australian Made

RedEarth prides itself being Australian made and

owned, supporting local economy and ensuring a quality product.

Remote Monitoring

With an Internet connection, the system can be remotely monitored on your mobile device using the optional remote monitoring service.

Safety

BlackMax Pro is a factory assembled & tested system that meets Australian Standards. It is designed to provide you safety and peace of mind given the electrical nature of the system.

Warranty & Support

Our BlackMax systems are fully backed with a 5-year repair/replacement warranty.
